PUMPKIN PICKING TIPS FOR OCTOBER

Who doesn't love to pick the perfect pumpkin? Here are some tips to help you choose the most carve-friendly pumpkin out there!

- The stem of a pumpkin is the most telling sign whether it is fresh or not. Stay away from wilted stems.
 - Brown spots may mean the pumpkin was infiltrated by bugs which could hurt the longevity of your pumpkin.
 - Perfect can have many meanings for different people. It does not have to be round or orange. Pick one that is an odd shape or has lumps for character.
 - Decide on a design before going out to pick pumpkins because this will help you choose the perfect one for your design.
- *Rot-free tip: Extend your pumpkins freshness after carving by wiping the "guts free" inside with a ratio of 1 Tablespoon bleach to 1 quart water. After the wipe down, smear petroleum jelly on all parts that were cut.

URADICATOR™ IS PERFECT FOR ALL PETS

Uradicator™ Odor & Stain Control is perfect for eliminating ugly stains and terrible odors! Locate the undesired pet stain that has dried into your carpet. Dampen the affected area with lukewarm water, not cold or hot!

Take your bottle of Uradicator™ Odor and Stain Control and spray the stain until the spot is moist, but not soaked. Let it sit for 30 seconds. Blot (do not rub) the stain using a clean, damp towel. Repeat these steps if necessary for the stain! For undesired odors, spray Uradicator™ directly on the affected area where the odor is originating!

Allow the specially bred enzyme cultures to attack the odors immediately! It digests the source, just the way that nature does!

HA-HA-HAVE A LAUGH

Q: What does a pumpkin pie say after a big meal?

Q: What did the Jack-o-lantern say to the pumpkin?

A: Cut it out!

Q: What does a hungry ghost want?
